For the prevention and cure o
ILIOUS AND MALIGNANT FEVERS
is recommended
HN's ANTI-BILIOUS PILLS
THIS Medicine has been attended
h a degree of success highly grateful
he inventor's feelings in several parts
he West Indies and in the Southern
Middle States, &c.
The testimony of a number of person
be adduced, who have reason to be-
e that a timely use of this salutary re-
ly has, under Providence, preserved
r lives when in the most alarming cir-
stances.
Facts of this conclusive nature speak
re in favour of a medicine than co-
ns of pompous eulogy founded on
e assertion.
t is not indeed presumptuously pro-
ed as an infallible cure, but the inven-
has every possible reason that can re-
from extensive experience for be-
ing that a dose of these Pills taken
e in every two weeks during the pres-
ence of our bilious fevers, will prove
infallible preventive; and further,
t in the earlier stages of those diseases
ir use will very generally succeed in
toring health, and frequently in cases
eemed desperate and beyond the pow-
of common remedies.
The operation of these pills is perfectly
d, so as to be used with safety by per-
s in every situation and of every age.
They are excellently adapted to carry
superfluous bile and prevent its mor-
secretions—to restore and amend the
petite—to produce a free perspiration
d thereby prevent colds which are of-
of fatal consequences. A dose never
ls to remove a cold if taken on its first
pearance: they are celebrated for re-
ving habitual costiveness—sickness at
stomach and severe head-ache—and
ght to be taken by all persons on a
nge of climate.
They have been found remarkably effi-
tious in preventing and curing disor-
rs attendant on long voyages, and
uld be procured and carefully preserv-
for use by every seaman.

Absconded,

ON the night of the 16th inst. my negro man JOHN, or JOHN ALLEN, (as he calls himself)—he is well known, having lived with me for several years, and has travelled a good deal with me. He is a very plausible fellow, about 30 years of age, slender made, and about 5 feet 5 inches high, rather of a yellow complexion, but the complete negro mouth and nose—has a small scar on one of his cheeks—has lately had a sore on his right leg, directly on the shin bone, which leg has the appearance of being much scored at a former period by disease or the small pox. His hat was made and stamped by Rogers of Baltimore.—A reward of 10 dollars will be given if taken in the town or county of Alexandria, 20 if in the county of Washington or Fairfax, 50 if in Baltimore or state of Maryland, and 100 if in Philadelphia or the state of Pennsylvania, and in like proportion if at any other places, with all reasonable charges for bringing him here and securing him in jail.

Fan-Sash Making.

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town

MURDER OF THE CHEHAW INDIANS.

The massacre of the friendly Indians in Georgia, announced in Monday's National Intelligencer, and so justly and feelingly reprobated by the editor of that paper, is as black a transaction as ever disgraced a human brute. In the annals of villainy there cannot be found any thing to surpass it, in cold, cowardly, unrelenting cruelty. For once, the barbarities of *Collot De Herbois*, at Lyons, and of *Carriere*, at Nantes, these infernals of the French revolution, are fully matched. Nay surpassed; for *they* had the spur of ambition, perhaps too of the execrable policy of fear, to prick them on, and might have imagined that in the murder of innocents alone, they could find refuge from the punishment due to their own guilt. That it should come to this!—That the delegation of power to the base and low, should at length terminate among us in such shocking abuses!—that this country justly pronounced the most free in the world, should by the perversion of one of its principal instruments of freedom, be stained with such a deed.—The murderer was *elected!*—In the name of God who could have elected him?—or what sort of beings in the shape of men could he have had in command, who could call themselves men and yet forbear to revolt from his orders?

The affair is altogether so abandoned, and cruel, that an uncorrupted heart must find some difficulty in believing it; we do not therefore wonder that the editor of the National Intelligencer should endeavor to find within the wide bounds of possibility, some relief for it from *mistake*. It is natural for the young and uncorrupted so to feel; but we must be permitted to assert that all hope of that kind must fail us, unless the article of intelligence from which the black account is taken be false:—the only mistake that can have taken place, must be in that account:—if there be an error it must be in *Mr. Pearre*, or the Milledgeville Reflector—it cannot have been in Wright and his banditti.—We know that a multitude of instances might be adduced of ships of the same nation, and detachments of troops from the same army, mistaken each other for enemies and doing each other much mischief, but never of their perseverance after one of them had struck, and ceased to attack or to resist. If Mr. Pearre's statement be true (and if it be not, the whole consideration of the matter had better be postponed to wait further intelligence) not only *women and children* were murdered, but an *old man*, the chief of the village, "whose silvery head and tottering limbs might have begotten pity in the most savage beast of the forest"—[these are the words of Mr. Pearre] "stood exposed to the fire of the whole battalion with the flag of peace extended, begging mercy, and making the most solemn asseverations of his most peaceable intentions, and that he wished no war. Even after he had fallen on his knees, he held the flag extended and begged for mercy—but inhumanity stopped not here—he was again fired at, and after they had murdered him, the ornaments were torn from his ears."

To hope, therefore, that there could be a mistake on the part of those assassins, if the relation of Pearre be not utterly false, would be to hope in the very teeth of impossibility. And for our own parts we must say that the only hope left to us is that the justice of our government may be raised high, and let to fall upon the offenders with a weight that shall crush them to death.

There exists in this union two perpetual sources of pollution to the morals of our country and of brutalization to the feelings of certain descriptions of our citizens—one is slave-holding—the other the condition of our Indians. As to the former, it would hardly be credited by those who do not know it that in the state of Maryland, not many miles from the metropolis, negroes, even females, are constantly kept with iron yokes about their necks—some few families being as ignominious for cruelty to the wretches as any driver in the Dutch West India colonies; and of the latter it may be said, that the condition of those who are within reach of our rapacious first settlers is truly pitiable. It is some consolation, however, to reflect that the executive of the United States, in whatever hands it has yet resided, has ever been the protector of the latter unfortunate race, as far as the laws gave them power to act, and that the wisdom, vigor and humanity of our present chief magistrate are likely to enable him to cope with the ferocious self-interested cunning and wily semi-barbarism of the disturbers, and, therefore, the enemies and haters of our red fellow citizens.

Alexandria, May 27, 1818.

The hon. Mr. PINKNEY (late minister to Russia) and family arrived at Baltimore in the ship Plato, from Bremen.

BOUNDARY COMMISSIONERS.

Yesterday, says the Burlington Centinel of the 15th instant, the hon. Thomas Barclay, his Britannic Majesty's commissioner under the 5th article of the treaty of Ghent, arrived here for the purpose of holding, with the hon. C. P Van Ness of this place, the commissioner of the United States, a meeting of the board under the treaty.

It is understood that the commissioners will meet this day, and will be detained here several days in making some preparatory arrangements, after which they will proceed to St. Regis.

The hon. W. C. Bradley, the American agent, T. L. Tiarks, esq. and Mr. Orne, the secretary of the board, are in town, and we perceive by the public papers that the hon. Ward Chipman, and Ward Chipman, jr. esq. agents of his Britannic Majesty, are on their way, and may be hourly expected.

F. R. Hasler, esq. the American astronomer, attached to the commission, is also, as we are informed, proceeding to this place upon the business of his appointment

Boston, May 19.

ANOTHER WONDER.

On Sunday we had a severe N. E. storm, and the greatest fall of rain which has been experienced for some time.—Yesterday morning thousands of live fish, of two or three different species, from 1 inch to 4 inches long, some belonging to fresh and some to salt water, were found on Boston Common. Numbers were carried away in pails and pitchers by the inhabitants, and many have been preserved alive in fish globes.

WHALES.

The captains of several vessels, which have arrived lately, mention having seen many whales in and near Boston Bay;—and the commander of one vessel states that he saw a spermaceti whale from which he thinks 1800 dollars worth of oil might be obtained. As the enterprising people of Nantucket are acquainted with the vicinity of these Leviathans, it is probable they will have some sport with and profit from them.

From the Winchester Gazette of May 23.

A murder, accompanied with circumstances of the most horrible and savage barbarity, was committed on the body of Dr. Robert Berkeley of this county, by his slaves, on Tuesday night the 12th inst.—The following brief account has been given us by different persons, and will, we believe, be found substantially correct.—The Doctor was called from his dwelling on the evening above mentioned, by a fellow (now in confinement,) and informed that Randolph, a fellow who had been some time run away, was returned and then at his cabin; on arriving at his cabin he found the fellow at the door, having in his hand a large club which the Doc'r. made an attempt to take from him. This was however resisted, and the issue of the contest was, the Doctor being knocked down, and the blows inhumanly repeated until he breathed his last! A large fire was then made in the cabin, on which the murdered body was thrown and consumed until scarce a vestige of it remained!!—In this part of the tragedy several other negroes were actors; hence it is concluded that the scheme was premeditated, and the object—money, of which it is believed they robbed the house to a considerable amount, as upwards of one thousand dollars, which were concealed in a cabin, have since been recovered. Mrs. Berkeley, it appears was ignorant of the fate of her husband for several days; the negroes having hatched up a story that when he was called from the house Randolph a second time made his escape, and that his master had pursued him.

Fifteen of the negroes are now confined in the jail of this place, but we regret to state that the principal perpetrator is not yet apprehended; diligent pursuit is however making after him; he was seen on Thursday last at a farm near town: his pursuers were then pressing upon him; but he has thus far eluded their vigilance.—Independent of the liberal reward offered for his apprehension (See advertisement,) it is hoped that other motives will induce every member of the community to be on the alert in apprehending the murderous monster, and brig him to that punishment his crime so richly merits.

POSTSCRIPT.

Since our paper was put to press the Murderer has been taken, and committed to Jail, with another of his accomplices in the robbery. More money has been found and other discoveries made, which will we hope lead to the recovery of the whole.

This place was on Thursday last visited with a heavy gust of rain, accompanied with as tremendous a hail storm as has perhaps ever been experienced.—The storm lasted from five to 15 minutes, and in less than that time the streets assumed a perfectly white appearance—the hail was generally from one inch to an inch and an half diameter; windows were broken, limbs of trees were broken off, and many garden vegetables prostrated to the ground.—It is feared that the growing crops have sustained serious injury. *ibid.*

The Convention of the *Protestant Episcopal Church*, in Virginia, commenced in this place on Wednesday last.—Bishop Moore and many other celebrated Divines are present. The occasion has drawn together a vast concourse of strangers from the adjoining and distant counties—the public have been gratified, and we trust edified, by powerful displays of pious eloquence; on no occasion perhaps have people evinced more serious attention to divine truths, than on the present; happy indeed will it be if their impression shall prove lasting!

From our correspondent.

"St. Thomas, 30th April.

"I have just seen the Gazette de Caraccas, which gives the official account of an engagement on the 17th inst. at Baul, near St. Carlos, between Bolivar, and the royal general Morales, in which the latter it is said, has gained a complete victory over Bolivar—he says that the independents lost 400 men killed, and 150 prisoners.

"Amongst the killed of Bolivar's army, are stated to be brigadier general Pedro Leon Torres, the chief of the staff "Sandanter," colonels F. Caliado, Salon and Manrique, lieutenant colonel Pinango, (nephew of Bolivar) Silvester Palacios, Manfredo Bercolari, majors Joseph Francisco and Juan de Dios Morales, the aid de camp to Bolivar, Florencio Tobar, the surgeon Sebastian, Olivares, and many others.

"The Spaniards have also suffered much agreeably to their own statement, amongst their killed they name colonel Raphael Lopez. They state that they have also taken 400 muskets, 3,500 cartridges, 400 lances, 30 cargas ammunition, 300 horses, and all the camp equipage, &c. &c. Bolivar's papers, hat and coats, &c. &c.

"P. S, I have heard of this opportunity but a moment before sailing. Brion, the independent admiral, is now at St. Bartholomews with 2 ships heavy armed, 2 brigs and 3 schooners—he lays with his own ship in the harbor of St. Barts, his other vessels lay at the five islands close by St. Barts. I understand he shews American colors while in port, where, however, he is openly very well received—he has with him 21 prizes from Cadiz, and one from Brazil.

"It is also reported that the independent general Marino is dead."

Communicated for the N. Y. D. Adv.

Hamburg, 11th April.

From the actual state of our market, we are under some right to expect that busines from your quarter will be carried on to advantage this year; for both in the sale of American produce, and in purchases of goods for return, circumstances are favorable at present.

Cotton of any description, except Bengal, is almost quite wanting here, and the first arrivals from your country will, no doubt, meet an advantageous sale.—Our market is at no great distance from a number of cotton manufactories, and therefore, affords a constant demand for this article. If no considerable fall of prices should take place in England, our prices must remain high, Georgia upland sells, at present, at 40 and 45d. which is equal to 30 a 34 cents; Louisiana sells at 46 a 47d. which is equal to 34 1-2 a 35 cts. first invoice prices. Sea Island cotton has not been at our market since a long time. Bengal meets an easy sale at 23 a 24d. which is equal to 17 a 18 cts.

Our stocks of tobacco are very small, and those which are the most liked here, to say black or fat Virginia and Kentucky, and light yellow Maryland, are quite wanting. There is little difference made here between Virginia and Kentucky, and prices regulate themselves only according to the fat or lean quality. Black, fat and heavy leaf, are always in a great demand for our snuff—manufactories and our market can never be overstocked with it. Tobacco of this description, would sell here at 8 a 10s. middling fat quality, fetches 7 a 8s. and dry, 5 1-2 a 6 1-2. These prices are equal with your prices of 10 1-2 a 12 cts, 8 a 9, and 5 a 7 1-2 cts. all charges calculated. Maryland tobacco has been very scarce since a long time; fine yellow is quite wanting, and would fetch exceeding high prices, single hhds have been paid with 18 a 24s; copper color sell at 10 a 1-2, and brown 9 a 8s. These prices correspond with 22 1-2 a 30 1-2, 12 a 14 1-2, and 6 1-2 a 9 cts. Maryland scrubs, likewise meet an easy sale, and if they are of sound smell, obtain high prices, from 8 a 11s. which leaves 9 a 13 cts. neat invoice prices.

Tobacco stems are wanting at present, but always necessary for our tobacco manufactories. The last price paid was 35s but if we calculate only 34, this would leave a neat invoice price of 4 1-4 cts.—This article, therefore, deserves full attention, but it is to be particularly recommended, that stems shipped to this place, should be dry, and not sauced or wet with salt, as the latter are not liked here, and therefore go off with difficulty and at reduced prices.

Carolina rice has run very high, and some time ago sold at 45s. There have now arrived some new supplies by two ships from Charleston, part of which has been sold at 37 and 40 st. according to the quality. A fall of prices appears probable as soon as more supplies arrive, but as they must calculate high, we do not believe that the decline will be considerable. The Hambro price of 36st. is equal to 37 per 100 lb. first cost with you.

Quercitron-bark is only recommendable for consignments to this place, if first quality can be shipped both at a low price and low freight. Your price of 50 dollars freight, calculates here, 17st. *all* charges included, but this is the highest price to be obtained for best quality.

Pott and pearl ashes are almost unsaleable, as we receive large supplies of Russian ashes, which are preferable in our market.

Amongst colonial produces, coffee and sugar are particularly to be recommended for consignments to this place, as our market is affording an easy sale for both these articles at any time. Several cargoes from Batavia, St. Domingo, &c, that have lately arrived here, were immediately sold, and we believe, with a very acceptable profit. Coffee stands very high at present, and owing to circumstances, will probably remain so; supplies from any quarter would, therefore, meet a good market. Sugars are low in proportion, except Muscovado. and yellow sugars of any description which are almost wanting.

Dyewoods are in pretty good demand, Cuba fustic is almost quite wanting and sells very high.

Of teas there is no stocks in first hand at present, and the quantity held by speculators is not considerable. Under such circumstances, we must expect that the quoted prices will maintain tho' the actual demand is but trifling.

Respecting export articles, we beg leave to observe, that our market is always well supplied with all that belongs to that category, on the head of which, hints might deserve the most attention, as the actual prices are as low as ever they have been before.

Freight goods to the United States, are sometimes very scarce here, but it is less difficult to find a freight or charter for American ships to the Havana, South America, &c. particularly if the owner of the ship takes a share for own account. It is easy to procure 30 to 32 freight per ton, to the Havana, and back to this place, other voyages in proportion.

CLEARED.

Brig Golden Grove, Smith, Lisbon.

ARRIVED,

Sloop Challenge, Murray, 5 days from N. York; oats, flax, butter &c. to the master.

Ship Hazard, Crabtree, (previously noticed) 46 days from Cork, via Norfolk, 3 days from the latter place, with butter, &c. to Lawrason & Fowle. Passengers in the cabin, Mr. Patrick Downes, lady and five children; Mrs. Cronan, Mr. Stubbs, and Mr. Hugh Cox, and 16 in the steerage—other passengers and cargo discharged in Norfolk. 21st, off Willoughby's Point, passed at anchor ship Talbot, of Salem, bound up; same day, on the Horse Shoe, spoke brig Panopea, Crabtree, and ship Potomac, Bradford, hence for sea—both anchored on the tail of the Shoe, wind being from the eastward.—On shore, on the Wolftrap, brig Rising Sun, Blanchard, from Portland, for Baltimore, with plaister—ran on in a heavy gale from E. N. E on Saturday morning the 16th instant; on passing her observed she had all sail set, apparently for the purpose of forcing her over the shoal—near her was a large top-sail schr, high and dry—name unknown—appeared to be a northern vessel;—same evening, off the mouth of the Rappahannock, spoke bound down, schr Gen. Armistead, from Baltimore for Havana;—Friday morning, off Smith's Point, passed a large ship coming out of the Potomac, with varnish sides and white bottom—same time passed, standing down the bay, a large rakish schr, supposed to be a patriot privateer;—off Maryland point, Saturday noon, passed the brig Peggy & Pamela, of Norfolk, bound down.

Particulars of the loss of the brig Active, of Philadelphia, Richard Gaul, master, furnished by Capt. Crabtree.

Left the Capes of Delaware on the 23d January, bound for Limerick in Ireland, and on the 28th commenced a series of tremendous gales, which continued without intermission or alteration till the 20th February, when, judging themselves within 2 degrees of the land, they hove to with the wind N. W.—next day sounded in 78 fathoms, still laying to.—22d, the gale increasing to an alarming degree, took in the maintopsail, and lay under balance reefed trisail until the afternoon of the same day, when they saw the land on the Irish coast directly under their lee, about 4 leagues distant, when, it still blowing a tremendous gale, with a very high sea, and they finding it impossible to show any sail to get off, concluded their only chance to save their lives was to run her ashore in some place more sheltered from the sea, accordingly they made for a litttle bite called Smerwick, a few miles to the northward of Dingle Bay, when at 7 p. m. they let go their small bower anchor by which they rode until about 9, when coming on violent squalls with snow they let go the best bower, both of which she dragged and at 10 p. m. she struck on a reef of rocks about a quarter of a mile from the land, when the sea made a fair breach over her, and drove every person into the rigging.—In this situation expecting every moment the masts to go over the side, (in which case every one must inevitably have perished) they continued until about 12, when the tide had left the vessel so as to permit them to leave her, which they did by making a hauser fast to a spar which drifted on shore, where some of the inhabitants being collected received the end and made it fast on shore, while the other end being made fast on board they all safely gained the land without saving the least article of clothing except what they had on—and it was with much difficulty the captain saved the brig's papers. The inhabitants had, in the mean time, collected to the number of 2 or 300, making many ineffectual attempts to get on board for the purpose of plunder, which they were prevented doing by the violence of the weather—they were extremely savage and hostile in their demeaner, and were mostly armed with hatchets, hooks, and other implements for plunder. Early the next morning a guard of 20 men arrived commanded by a lieutenant, being a detachment from the regiment quartered at Dingle. who took charge of the vessel until the revenue officers arrived, which was on the next day—They were only enabled to regain about 200 casks flaxseed, and 7 or 8000 staves which drifted on shore, the seed all damaged. The next night the brig went entirely to pieces. When the Hazard left Cork, the captain was still at Dingle, waiting to obtain what little there was left of the proceeds of the recovered articles—the revenue having thrown in claims to an amount exceeding by 500 the sales of the article, to contest the unjust claims the captain remained b

kind—every exertion was made by the officers and the crew to preserve the vessel and afterwards her cargo—Mr. Stubbs, chief mate, of the Active came passenger in the Hazard, from whom we have the above particulars.

ANTHONY KALE respectfully informs the ladies and gentlemen of Alexandria, that he has opened a Confectionary Shop, on King-street, one door below Mr. Bloxham's, where he constantly keeps on hand all kinds of cake, cordials, candies, fruit, nuts, &c.

Country merchants can be supplied with the above articles by wholesale on the most reasonable terms, and parties with all kinds of cake at one day's notice.

ALSO,

STOMACHIC BITTERS.

These celebrated bitters are composed purely of vegetables of the most innocent, yet specific virtues, and are infinitely superior to any thing yet discovered, for restoring weak and decayed constitutions, destroying worms, cleansing and strengthening the stomach, encreasing the appetite, and by the frequent use of them, they are a certain preventive against those complaints so common in the spring and fall seasons, such as intermittent fevers, and agues, long Autumnal fevers, dysenteries, &c. They are also of infinite service to those in the seafaring line, who make long voyages at sea, and are exposed to unhealthy climates; a preventive against contagious disorders—they are also a very pleasant bitter and are particularly recommended for the use of Taverns and Public houses, as well as private families.

HOUSES, LANDS, &c.

Plaister Land.

THE subscriber offers for sale two FARMS, being part of the tract whereon he resides, in Fauquier county, Virginia. One of these farms contains 600 acres, one half, at least, of which, is in wood—the other contains 450 acres, upwards of one third of which is in wood—on the latter are a commodious overseer's house, a new barn, stables, corn houses, and negro quarters, and about 20 acres of well improved timothy meadow. The woodland on both of these farms is covered with a fine growth of red oak and hickory, and the soil, what is denominated first rate tobacco land—the whole of the cleared land is under good enclosures, has had the advantage of a clover lay, and has afforded astrong evidences of its adaptation to the Plaister of Paris, as any land in the state. No land is better watered; both farms being bounded by Broad Run, and having (besides other springs) a never failing stream mill run passing through their centre.

Valuable Family Medicines.

JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.

Dr. Lee's Genuine (Windham) Bilious Pills,

Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samue Lee, patentee, &c. I. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water,

For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle.

Dr. Rawson's Genuine Itch Ointment,

A certain and safe cure for that disagreeable complaint, as well as other irruptions of the skin. Price 37½ cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Bitters,

For weakly and infirm constitutions. Price 37½ cents a box.

Hinckley's Infallible Remedy for the Piles,

A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste,

For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Tooth Ache,

Which, in almost every case, gives instant relief in that distressing complaint. Price 37½ cents a bottle

Cooley's Vegetable Elixir, for Coughs, Asthmas, Consumptions, &c.

A very valuable medicine in those complaints. Price 50 cents a bottle.

For sale, in Alexandria, by Dr. *Rich'd H. Little*; in Washington City, by Dr. *David Ott*; in Georgetown, by Dr. *John Ott, Otho H. Linthum & Co.* and *Nathaniel Jewett.*

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from

LEE's MEDICINE STORE,

No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:

Hamilton's Worm destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders, Consumptions, Lowness of spirits, Loss of appetite, Impurity of blood, Hysteric affection, Inward weaknesses and debility; Violent cramps in the stomach and back, Indigestion, Melancholy, Gout in the stomach, Pains in the limbs, Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops
